Nancy,

One more from Geary Meyer and gang at VanDiest. Again, as-soon-as you're able to answer (knowing it's crunch time) we're more than grateful!

Thanks!

Subject: RE: Webinar questions.......

Hello and good morning Joanne,

Thank You......very much appreciated the webinar.

One additional question please: There has been NO mention of any MSDS language change regarding the new EPA Container and Containment Rule? Does the language change required under the Storage and Disposal section of the EPA Label need to match the language on the Storage and Disposal section of the MSDS?

Again, Many Thanks and have a good day.

Subject: Webinar questions.......

Hello and good afternoon Joanne,

We have the following questions please:

1. **Can we have an electronic copy of the presentation from today and tomorrow too?**

2. **Is a leakproof test required for non-bulk DOT HAZMAT pesticide containers prior to reuse, 1 year, 2 ½ years or each refill.**

3. **Is a leakproof test required for non-bulk non-DOT (no UAN # - less than 119 gal) pesticide containers prior to reuse, 1 year, 2 ½ years or each refill.**

4. **Is container cleaning instructions in the directions for use section on the label acceptable or is a separate listing required to be included along with repackaging agreements from the registrant for a refiller.**

5. **Please define and explain what DOT 57 container is.**

6. **If a registrant has only one or two refillable container types for multiple products, is an itemized list required to be available and/or accompany a repackage agreement.**

7. **Can a registrant simply reference the new EPA Container and Containment Rule in a repackaging agreement as an all encompassing all inclusive liability type reference or do specific criteria need to be spelled out.**

Thank You for your help and the webinar.

Geary,

I got you registered for both webinars with Nancy Fitz at the EPA co-sponsored by AGinfoDATA; you should see the confirmation shortly, if not, please call me at 763-682-1414 and I'll get it figured out.

Thanks for your call and we look forward to possibly working with and VanDiest in the near future!
